

Research seminar in Soil Science and Geomorphology (GEO95)

Poster Session in Soil Science

14. July 2025

12:15 pm in seminar room W400, Rümelinstraße 19-23, Westbau

In presence only!

Poster topics

Automated High-Resolution Detection of Soil Erosion and Deposition Features in Agricultural Fields Using the Fine-Tuned Segment Anything Model

Hadi Shokati

Identifying the Spatial Drivers of Soil Carbon-Nitrogen Stoichiometry in Germany

Pegah Khosravani

Effects of tree-tree competition on growth in post-disturbance, drought-prone montane forests

Samira Garkisch

First Steps Towards the Reconstruction of Land Use in the Medieval Fluvial Anthroposphere of the Echaz Floodplain (Southwest Germany)

Snježana Pejdanović

Status:10.07.25

We are happy about many listeners!
Corinna Gall, Peter Kühn & Thomas Scholten
